

## How to clear the DCI App Data on an Android Device

Note: The wording on settings and buttons may vary by device and/or Android version. If an exact match is not found, look for a similarly named setting/button.

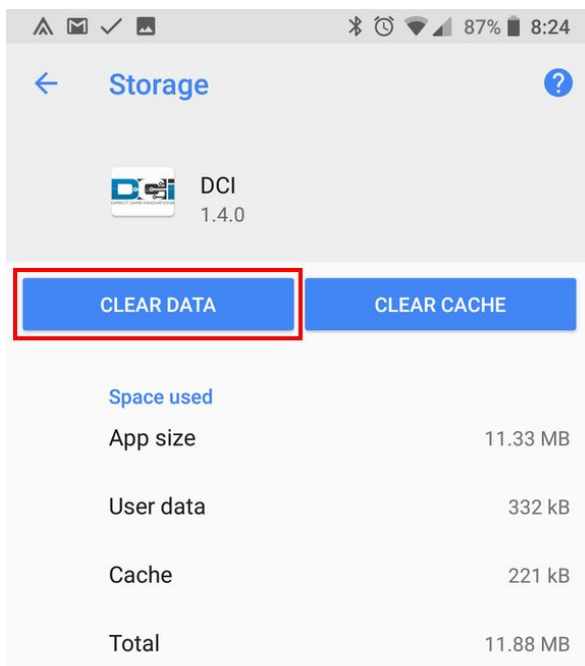

1. Navigate to Device Settings.
2. Select “Apps & Notifications”

3. Search for and select the “DCI” app.
4. Select “Storage”.

5. Select "Clear Data".

6. Select "OK" to confirm the action.

7. The App Data has been successfully cleared.
